PERSONAL PROJECTS

Ecommerce Website (08/2023 - 08/2023)

- A responsive and user-friendly e-commerce platform.
- Implemented a search bar, product listings, and interactive cart, enhancing the shopping experience.
- The design focuses on aesthetics and functionality, incorporating icons and visually appealing elements.
- This frontend work significantly contributes to project success by providing an efficient and engaging online shopping platform.

Travel Agency Website (06/2023 - 06/2023)

- Developed a fully responsive website for a travel agency, ensuring optimal user experience across devices
- Implemented interactive features, such as image sliders and booking forms, using JavaScript and CSS
- Collaborated with designers to bring their vision to life and create visually appealing web pages.

Landing Pages (05/2023 - 07/2023)

- Created several landing pages for marketing campaigns, optimized for lead generation and conversion
- Utilized HTML, CSS, and JavaScript to build engaging and visually appealing landing pages.

Netflix Clone (05/2023 - 05/2023)

- The Netflix Clone project aims to recreate the main features of Netflix, allowing users to sign up, log in, browse a dynamic homepage, search for movies and TV shows, view detailed content pages, and use an integrated video player.
- The tech stack includes React.js for the frontend, CSS or styled-components for styling.
